Shop Sign Measurement Checklist

Take these notes before you ask for any sign quotation

Measure (in feet or inches, note the unit)

- [ ] Board width (A) and height (B) available on the shopfront
- [ ] Total frontage height from floor to top (C)
- [ ] Clear space left and right of the planned board
- [ ] Distance of the board from the road, and the viewing distance
- [ ] Height from the ground to the bottom edge of the board

Look at the wall and site

- [ ] Wall material: concrete, brick, glass, ACP cladding or shutter
- [ ] Existing frame or old board to remove?
- [ ] Power point nearby for lit signs, and its distance
- [ ] Any tree, wire, pipe or neighbour board blocking the view
- [ ] Photos taken straight on, from the road, and from a side angle

Decide the look

- [ ] Shop name and tagline, exactly as it should be spelled
- [ ] Logo file available (vector or high-resolution)
- [ ] Colours and day or night visibility needed
- [ ] Lit or non-lit: LED backlit, front lit, or plain
- [ ] Material preference: acrylic, ACP, steel, flex or vinyl

Before you order

- [ ] Check local rules or permission needed for the sign size
- [ ] Ask what is included: design, fixing, power wiring, GST
- [ ] Ask for the warranty on LEDs and on the material
- [ ] Confirm the delivery and fixing date in writing
